

setec  
organisation

## Project Management and Assistance

We assist our clients in creating and modernising low-carbon transport solutions for passengers and goods.

We advise our clients on how to develop and realise their property projects, with an emphasis on sustainability.

We guide cities and regions in their ecological transition, while actively contributing to the energy renovation of their assets.

---

◦ **Infrastructures, Transports,  
Buildings, Energy, Urban Projects**  
In France and abroad

# As experts in project management, the setec organisation teams are here to help you...

## PROGRAM

a facility or installation, specifying features,  
dimensions and performance

## ADVISE

on project strategy, optimisation performance,  
a target organisation and change management

## CONTROL

the programme, planning, costs, budget,  
risks, interfaces and analysis of the  
operation's life cycle

## MANAGE

the project, associated contracts, service  
providers, procedures and consultation

At **setec organisation**, our ambition is to become or  
remain a trusted partner for all our clients

At every level, we provide practical assistance for  
the emergence and implementation of socially  
useful and environmentally responsible projects to  
meet the challenges of today and tomorrow.

For over 50 years, we have attached particular  
importance to the quality of human relations, both  
internally and with our partners and clients, and  
we strive to give meaning to every idea and every  
initiative.

Independently, we deliver high value-added  
services based on our ability to listen and advise,  
and on the technical expertise of the setec group.

To achieve this, we mobilise teams that are  
available, experienced, multidisciplinary and  
committed.

## Focus on ...

### our staff

The men and women of setec  
organisation are at the heart of our  
corporate project. They have complete  
freedom of action.

Engineering is not a male-dominated  
field and this is reflected within the setec  
organisation where women make up  
50% of our workforce. We pride ourselves  
on the diversity of our consultants'  
profiles and backgrounds.

The dynamism and know-how of  
our engineers and consultants are  
the foundation of setec organisation's  
success. This is why the energy devoted  
to finding, welcoming, training and  
positioning our employees to succeed  
is our best guarantee for the future..

## OUR SECTORS OF INTERVENTION

- Railway
- Urban transport
- Inland waterways and ports
- Roads
- Active mobility (cycling, walking)
- Multimodal interchange hubs
- Urban logistics

## OUR EXPERTISES

- Assist in defining requirements / Value Analysis
- Management of preliminary studies
- Operation program
- Project Management / Delegated project Management
- Resilience to climate change
- Governance / Contractualisation
